Renewable Energy Summer Workshop: Bioenergy & Bioproducts

WHERE & WHEN:
- June 29th – July 3rd 2015
- Penn State University – University Park

WHO:
- Middle/High School Science, Technology, Math, Engineering & Agricultural & 4-H Educators

WHY:
- Inquiry based activities & topics include: biofuels, biopower, bioproducts, biomass, bioheat, sustainability, systems thinking, & public policy
- Collaborate with other educators while learning about cutting-edge research from Penn State scientists
- Field trips to bio-based industries and producers
- Follow-up support from science education educators during the school year

COSTS and BENEFITS:
- Bioenergy kits (valued at ~$350) to use in your classroom
- Lunch is provided each day
- $300 stipend plus up to $175 reimbursement for travel expenses
- ACT 48 hours available for $10.00

HOW TO APPLY:
- CSATS is partnering with Cornell University to bring this opportunity to Pennsylvania teachers. Space is limited so register soon! Visit http://www.BioenergyEd.org for more information and to apply.

QUESTIONS:
- Contact Matt Johnson at Penn State Center for Science and the Schools (CSATS) with questions: mjohnson@psu.edu or 814-863-6607.
